The Honorable John Ashcroft, Governor
State of Missouri

The Honorable James L. Mathewson, President Pro Tem
Missouri Senate

The Honorable Bob F. Griffin, Speaker
Missouri House of Representatives

Members of the Missouri General Assembly

In accordance with the provisions of RMSo 23.190 and Committee on Legislative Research resolution on May 23, 1989, the Committee on Legislative Research is pleased to present this comprehensive study of state distribution of state funds to local governments. This report by the Oversight Division includes total funds passing from the State of Missouri to local government. Future supplements updating this information will be issued as requested by the Committee.

The Joint Committee on Legislative Research wishes to thank the Legislature for its support and urges all members to avail themselves of the services of the Committee whenever the need arises.

Respectfully,

Representative Christopher S. Kelly, Chairman
Committee on Legislative Research

Senator Edwin L. Dirck, Vice-Chairman
Committee on Legislative Research

PREFACE

The Oversight Division of the Joint Committee on Legislative Research was directed by Committee resolution on May 23, 1989, to undertake a comprehensive study of the total funds passing from the State of Missouri to local governments. Future supplements updating this information will be issued at the request of the Committee on Legislative Research.

The Oversight Division was created by HB 1087 passed by the 82nd General Assembly in 1984. The Division is responsible for conducting management and program audits of state government agencies and institutions to provide feedback to the legislature on the effectiveness of specific programs.

Oversight Division staff conduct the audits to determine whether the state agencies are managing and utilizing their resources in an efficient manner and according to legislative intent. The audits evaluate the performance of state agencies to determine whether the objectives of the programs are being achieved and the intended benefits are being realized. The audits may also address whether a program duplicates or conflicts with any other state program. In addition, the Division is assigned the responsibilities of providing fiscal research and analysis on legislation pending before the General Assembly.

On behalf of the Committee and the Oversight Division, I wish to acknowledge the staff of the Office of Social and Economic Data Analysis, University of Missouri, University Extension and in particular Evelyn J. Cleveland, Research Associate and the other members of that staff for their cooperation and assistance in providing the maps used in this report showing the disbursement of state program funds in Missouri by county.

LOCAL FUNDS COLLECTED BY STATE AGENCIES

Missouri does not spend a very large portion of its income to provide general support to local governments. According to State Government Finances, (U. S. Bureau of the Census), less than one-half of one percent of Missouri state government's inter-governmental spending goes to support general local government and less than one-tenth of one percent of all state government spending goes to support local government.

The state's Department of Revenue collects five financial institution taxes and distributes all of the taxes, less a collection fee (which is deposited to the General Revenue Fund), to the political subdivisions of the financial institutions from which the taxes were collected. Financial Institution Taxes collected during fiscal year (FY) 1989 were $32,223,653.

The state's Department of Revenue collects local option sales taxes and distributes all of these taxes, less a collection fee (which is deposited to the General Revenue Fund), to the city and county governments which imposed the taxes. There are eighteen (18) different local option sales taxes in Missouri law and the Department of Revenue mailed nine hundred and twelve (912) checks to cities and counties in Missouri during its latest local sales tax distribution. Local option sales tax collections during fiscal year (FY) 1989 were $653,364,663; however, a number of local option sales taxes are dedicated to specific purposes. Of FY 1989 local option sales tax collections $463,069,369 was from general purpose sales taxes, $121,559,717 was from transportation sales taxes and $68,735,577 was from specific purpose sales taxes.

Unlike General Revenue funds (one-forth of which, at a minimum, must be used for support of free public schools) or Motor Fuel Trust funds (one-forth of which must be distributed to counties and cities), neither financial institution taxes nor local option sales taxes are processed through the State Treasurer's office. Therefore neither of these collections are considered state funds. Consequently, when the United State's Bureau of the Census compiles reports on state monies distributed to political subdivisions the $685,000,000 collected, invested, and distributed by the state's Department of Revenue during FY 1989 will not be reflected in state funds provided for general support of local governments (or support of public transportation or support of local government capital improvements).

Local option sales tax collections for calendar 1971 were $30,221,802. New local option sales taxes take effect at the beginning of each calendar quarter. State laws provide for potentially over 2,000 local option sales taxes.

FINANCIAL INSTITUTION TAX LAWS

RSMo Citation	Tax	Original Bill	
148.010 to 148.110	Banks	HB 888	1945
148.120 to 148.230	Credit Institutions	HB 948	1945

94.700 to 94.755	Transportation (Cities of 200 or more)	HB 9	1983, 1st Ex. Sess.

STATE AID TO LOCAL GOVERNMENTS

As was noted earlier in the discussion of financial institution and local option sales taxes, Missouri cities and counties derive a relatively small percentage of their general revenue funds from the State. The largest amount of state aid to political subdivisions goes to public school districts. The next largest amount of state aid goes to cities and counties for roads, highways and transportation. The state constitution guarantees that certain percentages of certain state funds be distributed to political subdivisions for these areas of endeavor.

It should also be noted that there were three statewide tax increases approved by the legislature or the people during the 1980's. Two increases supplemented aid to public schools, the increase in the Cigarette Tax and the Proposition C sales tax, and one increase benefitted highways and transportation, the increase in the fuels taxes.

The responses from various state agencies to Oversight's inquiries about their distributions of state funds to political subdivisions (and examinations of appropriation bills) indicate that state aid to local governments in Missouri tends to be for specific programs and tends to have conditions local governments must meet to qualify for the state aid.

What follows is a state-department by state-department listing of distributions of state funds to political subdivisions or distributions of funds for which political subdivisions of their agencies might be eligible. There is a short description of the purpose of the distribution and of what conditions, if any, political subdivisions must meet in order to receive the distribution and in cases of distributions to political subdivisions a chart showing the amount of money distributed during fiscal years 1984 through 1988.

Public Libraries

The Coordinating Board for Higher Education distributes state aid to those library districts which have tax rates or appropriations at least as great as the rate in effect on December 31, 1946, or on the date the tax rate or appropriation was established.

Distributions are made on a per capita basis. (See section 181.060, RSMo) Appropriations for aid to libraries for FY 1989 were $1,976,400 and the entire amount was spent.

The general assembly may also appropriate state funds for public libraries for services to the blind (181.065, RSMo) and for support of library networks (182.812), but no appropriations for these purposes were made for FY 1989.

Community Junior Colleges

The state provides fund for community junior colleges and for school districts providing junior colleges. The amount of aid may be as much as fifty percent (50%) of the state average operating cost per credit hour as approved by the Department of Higher Education (see 163.191 RSMo, 1989 Supp.), depending on funds available and appropriated. In fiscal 1989 $62,462,738 was appropriated and $61,516,649 in General Revenue funds was spent for community junior colleges in Missouri. (The comparable figures for FY 1979 were $28,366,378 appropriated and $25,806,138 expended. Full time equivalent enrollment in Missouri two-year colleges was 27,043 in the fall of 1979 and 37,647 in the fall of 1989 according to the Coordinating Board for Higher Education's Statistical Summaries.)

DEPARTMENT OF ECONOMIC DEVELOPMENT (DED)

The Department's Division of Tourism has occasionally received appropriations which were used to help publicize a specific festival or occasion; however, no such appropriation has been made since FY 1986.

Another example of a program which is not designed for political subdivisions but in which political subdivisions may participate is the Job Training program established in sections 620.470, RSMo, through 620.495, RSMo. Section 620.479, RSMo, authorizes the Department to contract with "...businesses, industries, other state agencies and the political subdivisions of the state, for the purpose of carrying out the provisions of sections 620.470 to 620.481". Appropriations from the Missouri Job Development Fund for Contractual Services through the Department of Elementary and Secondary Education for 1989 were $7,390,508; expenditures for AY 1989 were $3,817,829. The remainder of the appropriations ($3,572,679) was reappropriated to FY 1990.

The Department's State Council on the Arts receives and dispenses funds for performing and fine arts. The Council on the Arts was created in 1965 and is permitted to enter into contracts "...with individuals, organizations and institutions for services furthering the educational objectives of the council's programs...with local and regional associations for cooperative endeavors furthering the educational objectives of the council's programs...". Appropriations from General Revenue for participation with local organizations in cultural projects for FY 1989 were $4,610,512 and expenditures during

AY 1989 were $4,462,514. (Federal Funds appropriated were $374,905, and spent were $306,259.) Again, the distributions are not for political subdivisions but agencies of political subdivisions are eligible for distributions.

DEPARTMENT OF ELEMENTARY AND SECONDARY EDUCATION (DESE)

The largest amount of state funds distributed to political subdivisions goes to public school districts. Section 3(b) of article IX of the state constitution reads, in part, "...but in no case shall there be set apart less than twenty-five percent of the state revenue, exclusive of interest and sinking fund, to be applied annually to the support of free public schools."

The largest distribution of state funds for the support of free public schools is made through the foundation formula (section 163.031, RSMo). Formula appropriations for FY 1989 were $1,050,535,128 and distributions to school districts were $1,050,535,110.

School districts must meet certain standards to qualify for foundation formula distributions. These standards (163.021, RSMo, 1990 Supp) are: 1) a minimum 174 day and 1,044 hour school year, 2) maintenance of adequate and accurate attendance, personnel and financial records as required by the state board of education, 3) computation of average daily attendance, as defined by law, and 4) a minimum property tax levy of $1.25 per $100 of assessed valuation for public schools.

The foundation formula distribution, while still the largest distribution to public school districts, has decreased as a percentage of the state aid to public schools over the last decade. According to the Office of Administration's Appropriation Activity Report, in FY 1979 the Department of Elementary and Secondary Education distributed or transferred out $549,889,643 from two special revenue funds: 1)

the State School Money Fund ($549,880,896 spent), and 2) the Handicapped Children Trust Fund ($8,747 spent). Foundation formula expenditures were $526,839,692 or 95.8% of special revenue expenditures by DESE. In FY 1989 DESE spent $1,508,264,658 in special revenue funds. There were four special revenue funds: 1) the State School Money Fund ($1,095,024,539 spent), 2) the Excellence in Education Fund ($3,163,632 spent), 3) the Fair Share Fund ($25,635,593 spent), and 4) the School District Trust Fund ($384,441,894 spent). Foundation formula distributions were $4,050,535,110 or 69.7% of DESE's special revenue spending.

The Excellence in Education Fund was established under terms of HB 463 of 1985 (commonly referred as the Excellence in Education Act). The Fund, a revolving fund, is available to pay costs of the incentives for school excellence programs (160.264, RSMo), increases in minimum teachers salaries (163.172, RSMo), professional teacher and administrator programs (168.400 and 168.410, RSMo), tuition reimbursement programs (168.415, RSMo), and the career development and teacher excellence plan (168.500, RSMo). Appropriations from the Excellence in Education Fund for FY 1989 were $28,275,062. Expenditures were $3,163,632.

The Fair Share Fund is derived from a four-cent per pack increase in the state cigarette tax approved by the legislature in 1982 (SCS HCS HB 1548 & 1543). The Fund is distributed to school districts on the basis of average daily attendance. Fair Share Fund appropriations for FY 1989 were $26,100,000 and expenditures were $25,634,593.

The School District Trust Fund is derived from a one percent sales tax approved by the voters of Missouri in 1982 (Proposition C, thus the School District Trust Fund monies are often referred to as "Prop C" funds). Fund monies are distributed on an eligible pupils per district basis (163.087, RSMo). School districts must reduce their property tax operating levies by an amount which reduces property tax income by one-half of the amount of Prop C monies received. To date, no school district has had to reduce its property tax levy to the point which would endanger eligibility for foundation formula distributions. School District Trust Fund appropriations for FY 1989 were $394,400,000 and expenditures were $384,441,894.

The State School Money Fund provides money for programs other than the foundation formula distribution. Appropriations (and expenditures) from the Fund for vocational schools for FY 1989 were $33,312,528. Federal funds appropriated for that year for vocational education were $19,078,913. Federal vocational education funds must be matched by state or local funds on at least a dollar-for-dollar basis.

Other appropriations from the State School Money Fund for FY 1989 were $14,100 for payments to readers for blind or visually handicapped students ($8,100 was spent), $10,000 for programs for the gifted ($578 was spent), $10,905,460 to reimburse school districts for early childhood screening programs ($10,903,275 was spent), and $341,480 to reimburse districts for hard-to-reach incentives in conjunction with early childhood screening programs.

It should be noted that in FY 1979 there were no appropriations from the State School Money Fund for gifted student programs or for early childhood screening programs. There were appropriations for general administration and instruction, career and adult education, the Missouri School for the Deaf, and the Missouri School for the Blind. Appropriations for these functions for FY 1989 were from the General Revenue Fund.

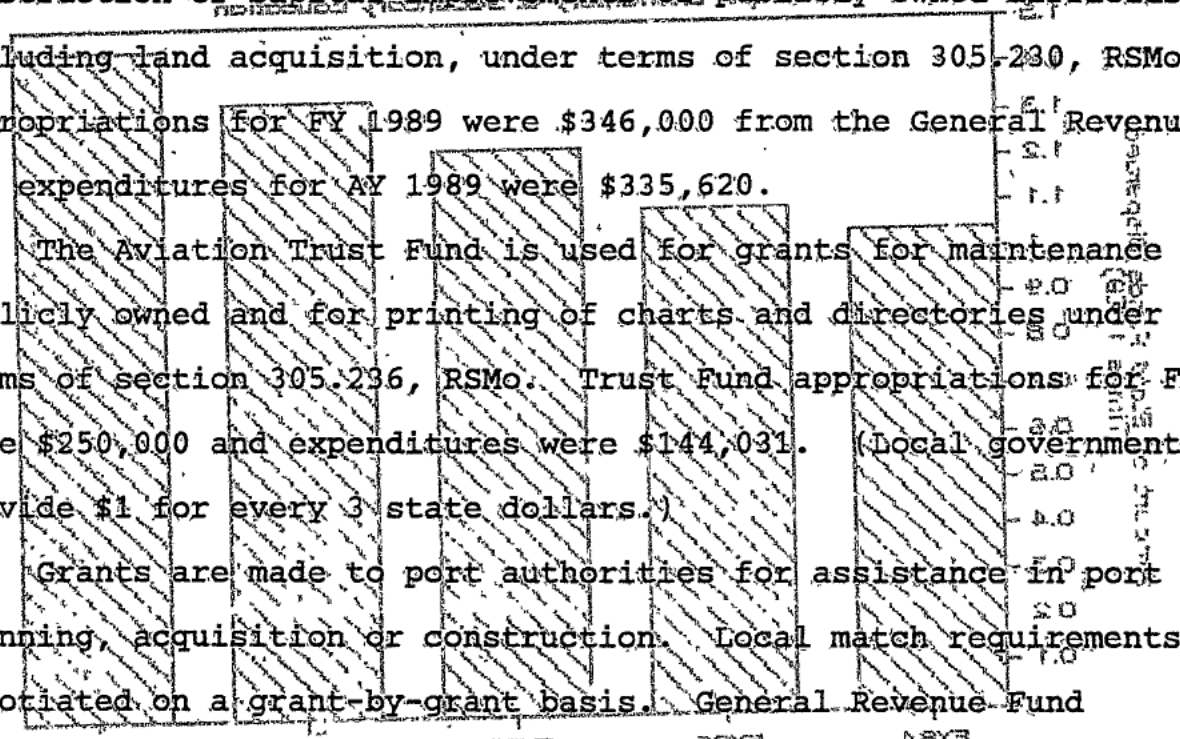
The Department of Highways and Transportation's (DH&T) responsibilities include, aside from highways, encouraging transit programs, aviation, waterways use, and rail use.

The DH&T makes matching grants to local governments for construction or capital improvements of publicly owned airfields, including land acquisition, under terms of section 305.230, RSMo. Appropriations for FY 1989 were $346,000 from the General Revenue Fund and expenditures for AY 1989 were $335,620.



The Aviation Trust Fund is used for grants for maintenance of publicly owned and for printing of charts and directories under terms of section 305.236, RSMo. Trust Fund appropriations for FY 1989 were $250,000 and expenditures were $144,031. (Local governments provide $1 for every 3 state dollars.)

Grants are made to port authorities for assistance in port planning, acquisition or construction. Local match requirements are negotiated on a grant-by-grant basis. General Revenue Fund appropriations for the port development program for FY 1989 were $327,000. AY 1989 expenditures were $314,310.

The DH&T pays costs of reimbursing political subdivisions for the acquisition of roads and bridges taken over by the state as permanent parts of the state highway system. This is only a part of the general state highways program authorized under section 30 of article IV of the Missouri Constitution (the State Road Fund).

The DH&T administers a number of Third State Building Trust Fund projects. Since the projects funded and the amounts spent per project

vary from year-to-year, appropriations are not necessarily closely correlated with spending and spending can vary from year to year. Expenditures for AY 1989 for Third State Building Fund projects were $1,855,197.

DEPARTMENT OF MENTAL HEALTH (DMH)

Under terms of section 56.700, RSMo, counties which contain state mental health facilities with 140 or more inpatient beds are eligible to receive up to $15,000 per year for an assistant county attorney and up to $15,000 per year for investigative and clerical personnel to carry out duties related to mental health facilities. Appropriations for these purposes for FY 1989 were $176,400 and expenditures for AY 1989 were $159,996.

The Department also makes payments to school districts for services to the Department's school-age clients for costs to school districts in excess of the average-sum-per-child produced by local tax efforts. To elaborate, if a DMH client is moved to a non-"home" district (usually because that district does not offer educational services the client needs), the client's "home" district pays the average-sum-per-child produced by local tax effort to the "host" district and DMH pays the "host" district for any costs above the amount paid by the "home" district. (See 162.970, RSMo.)

DEPARTMENT OF NATURAL RESOURCES (DNR)

The Department of Natural Resources (DNR) is responsible for distributing state and federal funds for a large number of programs which generally relate to 1) the environment and 2) parks and recreation. Some of the programs are described briefly, below.

DNR grants federal funds to local air pollution control agencies and for air pollution studies in Missouri. Fiscal Year 1989 appropriations for air pollution control were $1,500,000 and Appropriation Year 1989 expenditures were $1,016,529.

DNR distributes grants of federal funds to state agencies and political subdivisions for acquisition and development of parks and outdoor recreation areas and facilities. Grant recipients must match grant funds on a dollar-for-dollar basis. Grant recipients must comply with federal regulations and must have completed the work identified in the grant application. Appropriations for these grants for FY 1989 were $2,000,000. Expenditures during AY 1989 were $491,224.

DNR has made grants to specific local parks and botanical gardens for capital improvements, from General Revenue funds. Appropriations from the General Revenue Fund for specific local parks or botanical gardens for FY 1989 were, however, $0.

DNR is the administrative state agency for "Petroleum Violation

Escrow Fund" monies (sometimes called "Exxon" funds, though other companies contributed to this Fund). These funds are used for a number of purposes including several which provide grants to political subdivisions or provide grants for which political subdivisions may apply:

1) The Institutional Conservation Program provides grants to schools and hospitals, as defined in federal law, for capital improvements to make them more energy efficient. Distribution of these funds must be approved by the legislature's Joint Committee on Capital Improvements Oversight. Appropriations for FY 1989 were $2,596,064, expenditures were $1,156,447, and $1,439,617 was reappropriated to FY 1990.

2) The State Energy Conservation Program makes grants to local governments and not-for-profit organizations which meet guidelines for distribution of Exxon Settlement Funds. Missouri originally received $6,571,706 and Settlement Funds unspent at the end of a fiscal year have been reappropriated to the next fiscal year. The reappropriation for FY 1989 was $5,068,844; expenditures during AY 1989 were $2,083,915; reappropriations to FY 1990 were $2,984,928. The General Assembly also appropriated $1,431,197 from the Petroleum Violation Escrow Fund for the State Energy Conservation Program for FY 1989.

3) Weatherization assistance programs provide to make the homes of low-income, elderly and handicapped persons more energy efficient and provide grants to weatherize those

homes. Appropriations for FY 1989 were $6,698,669. Expenditures were $2,086,888 and reappropriations to FY 1990 were $4,611,781.

4) A program of matching grants to public and not-for-profit schools and hospitals in accordance with U.S. Department of Energy policies. The first grants under this program were made in FY 1989. Appropriations were $4,500,000, expenditures were $820,195 and $3,679,805 was reappropriated to FY 1990.

DNR makes grants to local soil and water districts for soil and water conservation programs. Appropriations from the Soil and Water Sales Tax Fund for these grants for FY 1989 were $3,000,000 and expenditures for AY 1989 were $2,992,371.

DNR, as part of the Soil and Water Conservation Program, does soil survey mapping and makes grants to soil and water conservation districts for soil survey mapping. FY 1989 appropriations for soil conservation survey grants were $388,000 and AY 1989 expenditures were $262,718.

Another part of the Soil and Water Conservation Program is grants for special area land treatments. Special Area Land Treatment Program appropriations for FY 1989 (including reappropriations from prior fiscal years) were $4,091,153. Expenditures during AY 1989 were $577,427 and reappropriations to FY 1990 were $3,513,726.

The Missouri Clean Water Commission, which is domiciled in DNR, administers storm water control funds appropriated under terms of section 644.031, RSMo. Storm water control grants may be made to any first class county, Kansas City or St. Louis. Storm water control grants may only cover as much as one-third of the cost of any storm water project. FY 1989 appropriations and reappropriations for storm water control grants were $6,750,468 and AY 1989 expenditures were $1,977,899.

The state may (under terms of section 192.600, RSMo) make direct grants to aid rural sewer and water systems, public water supply districts, or municipal sewer systems. Appropriations for State Water and Sewer Grants (including reappropriations) for FY 1989 were $2,185,801. Expenditures during AY 1989 were $1,109,816 and $1,075,985 was reappropriated to FY 1990.

The General Assembly may (under terms of section 644.101, RSMo) appropriate monies for grants or loans to assist in construction of water pollution control projects authorized by the Clean Water Commission. $40,200,000 was appropriated for loans for wastewater treatment facilities during FY 1989, none was spent, and $40,200,000 was reappropriated to FY 1990.

DNR also administers the Park Sales Tax Fund. (One-tenth percent of the state sales tax is for parks and soil and water conservation. One-half of the one-tenth percent is deposited into the Soil and Water Sales Tax Fund and the other one-half is deposited into the Park Sales

Tax Fund.) Park Sales Tax Fund monies are appropriated for maintenance and improvements of existing state parks and recreational facilities and for acquisition of land for new facilities. There were no grant or loan programs for local governments or for individuals funded with Park Sales Tax Fund monies in FY 1989.

DEPARTMENT OF AGRICULTURE (DOA)

The Department has contractual arrangements with four local health departments to inspect grade A milk and milk supplies (The St. Louis County, St. Louis City, Kansas City, and Springfield health departments or divisions). Milk inspection contract appropriations for FY 1989 were $1,400,000, contract expenditures during appropriation year 1989 were $1,374,319. Inspections of milk and milk products are required by section 196.935, RSMo. The State Milk Board (section 196.941, RSMo) directly oversees the program. This Board is domiciled in the Department of Agriculture.

Section 212.460, RSMo, authorizes the Department to (if funds are appropriated) pay up to 50% of premiums offered at nonprofit county and district fairs and fairs of nonprofit agricultural societies which hold shows, exhibitions or fairs for the advancement of agriculture in Missouri. The fairs must, at least, match each state dollar for premiums and the maximum amount of state money for fairs in any one county during any one year is $35,000. The legislature appropriated $200,000 from premiums for FY 1989 and $165,421 was spent during appropriation year 1989. (NOTE: Appropriation year (AY) includes the fiscal year in question and the "lapse period" for spending funds appropriated for that fiscal year. Appropriation year 1989 extended into the fall of 1989.)

The Department is authorized to provide matching grants of up to $2,500 per year for maintenance, new construction, remodeling and

repair of fair buildings. FY 1989 appropriations and AY 1989 expenditures were $60,000.

The last two programs noted are examples of programs which are not specifically for local governments but are available to local governments.

DEPARTMENT OF HEALTH (DOH)

The Department funds Local Health Agencies (LHA's) by contracts which contain specific performance criteria. Each county has an LHA and LHA's are required to provide financial support beyond what the state provides, but there is no requirement for any local government matching funds because LHA's are not necessarily government-affiliated. (Although in some counties the LHA is a city health department.) Appropriations for LHA's for FY 1989 were $4,736,016 and $4,572,486 was spent in AY 1989.

The Department distributes Hospital Subsidy Payments to public hospitals which apply and qualify for such payments. There are no local matching funds required of local governments but certain minimum expenditures for hospital operations are required. Funds are to be used to supplement local appropriations for poor patients. Appropriations for FY 1989 were $1,972,280 and expenditures for AY 1989 were $1,913,112. (Sections 189.010 to 189.095)

DEPARTMENT OF REVENUE (DOR)

Collection Fees on Recoveries by Prosecutors

Section 136.150, RSMo, mandates payment by the state to circuit or prosecuting attorneys twenty percent (20%) of delinquent state taxes, licenses, or fees recovered by those attorneys when they were called upon to act by the state director of revenue.

Appropriations for this purpose for FY 1989 were $700,000; expenditures in AY 1989 were $362,736.

Lien Notice and Release Payments

Section 144.380, RSMo, 1990 Supp. specifies that county recorders receive fees for recording, releasing, or expunging liens filed by the director of revenue in relation to sales tax delinquencies.

Appropriations for this purpose for FY 1989 were $204,600; expenditures for AY 1989 were $171,233.

Fuel Funds Distributions

The second largest sources of state distributions to local governments is motor fuel-related. Sections 30(a) and 30(b) mandates the use of certain funds for highway or transportation purposes. They also specify that 10% of these monies be distributed to counties and 15% to cities. Cities must have a population of at least 100 persons according to the latest federal decennial census in order to be eligible for a distribution.

Cities and counties may use funds "...solely for the construction, reconstruction, maintenance and repairs of roads,

bridges and highways, and subject to such other restrictions and provisions as provided by law.".

Appropriations from the County Aid Road Trust (CART) for FY 1989 were $53,400,000. Expenditures were $52,697,248.

Appropriations from the Motor Fuel Tax Fund for distribution to cities for FY 1989 were $79,300,000. Expenditures were $79,045,872.

Reimbursement to Counties for Assessment Maintenance Plans

One of the larger distributions of state funds to counties is for reimbursing expenses for carrying out property tax assessment maintenance plans.

Under the terms of section 137.750, RSMo, 1990 Supp., Missouri reimburses qualifying counties (including St. Louis City) for up to fifty percent (50%) of expenses incurred in carrying out assessment maintenance plans.

In order to qualify for reimbursement a county must establish an assessment fund according to the terms of 137.720, RSMo, 1990 Supp. (For first and second class counties the fund consists of 1/2% of ad valorem taxes collected and for other counties the fund consists of 1% of collections.)

Appropriations and expenditures for assessment maintenance plan expenses reimbursements for FY 1989 were $13,217,562.

Admissions Tax (Horse Racing)

Section 313.630, RSMo imposes an admission tax of ten percent (10%) on the price of admissions for horse racing. This tax is imposed in lieu of state and local sales and amusement or

entertainment taxes. The general assembly may appropriate up to one-half the amount of taxes collected in any one year (tax revenues are deposited in the general revenue fund) to cities and counties in the area in which horse races are conducted to assist funding of services and facilities required in affected cities and counties for the conduct of horse racing.

Appropriations for FY 1989 were $11,675; expenditures during AY 1989 were $5,838.

DEPARTMENT OF SOCIAL SERVICES (DOSS)

The Department of Social Services (DOSS) administers some of the largest distribution programs operated by the state, including Aid to Families with Dependent Children, Title XIX programs, Foster Parent Programs, and programs for Aged, Blind and Disabled. But these program payments are distributed to individuals or to non-governmental agencies.

DOSS's largest program of grants to local governments is entirely federally funded--the Community Development Block Grant program. There are, however, three programs administered by DOSS which provide state monies for grants for which local governments are eligible: 1) distributions to Area Agencies on Aging, 2) grants for local initiatives to assist the homeless, and 3) community based treatment programs for youth.

Funds distributed to Area Agencies on Aging must be used to provide in-home and community based support services for the elderly and handicapped. Funds are distributed on a Formula basis. Services include transportation, home delivered and congregate meals, and employment training for persons who are 60 or older or who are between 18 and 59 and handicapped. Appropriations for this program (referred to as the Alternative Services program, through fiscal 1988) were $963,000 in General Revenue Funds and $25,000,000 in Federal Funds for FY 1989. Expenditures for AY 1989 were $905,042 of General Revenue and $23,346,691 of Federal Funds.

FY 1988 was the first year DOSS made homeless assistance grants. Participating local governments must match 75% of grants. Grant

recipients are selected from formal written proposals and conferences. Appropriations and expenditures for FY 1989 were $500,000 in General Revenue Funds.

The community based treatment of youth program (often referred to as the Juvenile Court Diversion program) encourages local governments to develop youth services programs to divert less serious offenders from commitment to the Division of Youth Services. Appropriations for this program for FY 1989 were $677,000 and expenditures were $607,288.

DEPARTMENT OF PUBLIC SAFETY (DPS)

The Department of Public Safety (DPS) administers a crime laboratory assistance program. Funds are distributed to regional crime laboratories on a per capita basis. The regional crime labs must match state funds on a dollar-for-dollar basis. Appropriations for regional crime labs for FY 1989 were $153,900 and expenditures were $149,273.

In 1986 the DPS distributed, through the Adjutant General's State Emergency Management Agency, $341,403 for the purpose of matching federal and local funds for programs to provide assistance for disaster damage to primary dwellings of individuals and families and to provide assistance for repair and restoration of damaged public facilities. (Total appropriations for these purposes for FY 1986 were $579,500.)

MISSOURI DEPARTMENT OF CONSERVATION (MDC)

The Conservation Department makes payments in lieu of property taxes for land which the Department acquired after July 1977, under terms of section 43(b) of article IV of the state constitution. Payments in lieu of taxes in FY 1989 were $388,987.

The Department makes payments in lieu of property taxes to counties for land classified as Forest Crop Land under terms of section 254.110, RSMo. Forest Crop Land payments for FY 1989 were $371,532.

The Department makes matching grants to rural fire protection districts. FY 1988 grant distributions were $202,140. (In FY 1988, 42% of these grants came from federal funds.)

The Department conducts a program of cooperative agreements with counties to improve roads and accesses to Department properties which are used by the public. Participating counties must provide labor and equipment for the projects. Department expenditures for what are called County Aid Rock Trust (CART) projects were $50,590.

OFFICE OF ADMINISTRATION (OA)

Section 454.435, RSMo, allows prosecutors to enter into cooperative agreements or into multi-county agreements to secure child support from persons referred to prosecutors by the Department of Social Service's Division of Child Support Enforcement. The Office of Administration made payments to prosecutors in counties and cities with cooperative agreements on child support enforcement in fiscal years 1984 and 1985. No such payments have been appropriated since.

The Children's Trust Fund Board may (under terms of section 210.173) disburse monies for purposes specified in sections 210.170 to 210.174. $300,000 was appropriated for such disbursements for FY 1989, but no program disbursements were made.

OA pays counties, sheriffs and deputies for court costs of indigents in criminal cases (sections 550.010, 550.020, and 550.040), costs of incarceration to counties (section 221.105), costs of transporting prisoners (section 57.290), and costs of serving extradition warrants (section 548.241). Appropriations for these purposes for FY 1989 were $9,706,524 and expenditures for these purposes in AY 1989 were $8,769,948.

OA distributes the one-half of the County Foreign Insurance Premium Tax which is required, under section 148.360, to be distributed to school districts. Appropriations for FY 1989 were $61,150,000 and expenditures were $54,789,948.

OA distributed monies from the County Officers Compensation Fund to counties to reimburse those which paid additional compensation to county officers under several sections of Missouri law. (See section 67.133, RSMo.) These payments were scheduled to, for the most part, stop after January 1, 1988 under terms of 168.134 and no appropriations from the fund were made for FY 1989.

OA distributes one-half of the tax on private railroad cars to counties (and the City of St. Louis) on the basis of the amount of railroad track in each county. (Section 152.050) Recipients may use the money as they wish and there are no matching requirements. Appropriations of railroad car taxes for FY 1989 were $656,250; expenditures of AY 1989 were $321,338.

Pursuant to section 148.330, RSMo, OA distributes part of the County Stock Insurance Fund to counties (and the City of St. Louis) and part to the school districts in which the principal offices of the companies being taxed are located. County distributions have no matching requirements and the uses of county distributions are not specified.

OA reimburses counties for authorized salary increases to deputy juvenile officers over calendar year 1982 base salaries, under terms of section 211.393, RSMo. Appropriations and expenditures for FY 1989 for these reimbursements were $891,539.

OA is the "pass through" state agency for funds received from the

federal government for leases of land owned by the United States under terms of the Flood Control Act of May 15, 1928. Sections 12.089 and 12.090 prescribe that these monies be used to benefit public schools and roads of the county in which the federal government land is located or to defray county costs for flood control and drainage improvement. FY 1989 appropriations for lease refunds were $400,000; AY 1989 expenditures were $335,060.

OA distributed, in FY 1986, monies refunded to counties from the National Forest Reserve under terms of an Act of Congress. There have not been any such distributions of federal monies in Missouri since FY 1986.

Section 211.156, RSMo, authorizes payments to counties toward the care and maintenance of neglected and delinquent children. FY 1989 appropriations for such payments were $2,232,210 and AY 1989 expenditures were $1,937,096. (Note: Payments were eight dollars per day per child for FY 1989. Payments are ten dollars per day per child in FY 1991. Payments are scheduled to rise to twelve dollars per day per child in FY 1992 and to fourteen dollars per day per child in subsequent years.)

Section 56.790.2, RSMo, authorizes a fee of three and one-half dollars as costs in each court proceeding in Missouri for violation of state laws and specifies that the fees be turned, by court clerks, over to the state treasurer who then puts ten percent of the fees into the Political Subdivision Reimbursement Fund and ninety percent of the fees into the Missouri Prosecuting Attorneys Fund. Political

Subdivision Reimbursement Fund monies may be used to reimburse political subdivisions for costs associated with the performance of duties set out in SB 601 of 1984, which gave some additional duties to and mandated additional training for prosecutors. Missouri Prosecuting Attorneys Fund monies may be used to reimburse prosecutors for additional duties required by SB 601. The provisions of the sections governing additional duties and training for prosecutors expired January 1, 1988; therefore, there were no payments for political subdivision reimbursement or from the Prosecuting Attorneys Fund in FY 1989.

The state is authorized to make grants to public television stations in Missouri by sections 27.200 to 27.230, RSMo. Thirty-five percent of the appropriation is divided equally among television stations receiving grants. The balance of the appropriation is divided among the stations proportionately to their operating expenses. Appropriations for FY 1989 for public television support were $150,000 and expenditures were $145,500.

Local registrars are reimbursed for recording and filing vital records under terms of section 193.305, RSMo. The Bureau of Vital Statistics in the Department of Health issues vouchers to OA for reimbursable local registrar activities. Appropriations for reimbursement of local registrars for FY 1989 were $136,200 and expenditures during AY 1989 were $134,776.

Section 115.065, RSMo, provides guidelines for apportioning costs for special elections in Missouri between political subdivisions and

the state. Appropriations for the state's share of special election costs for FY 1989 were an estimated $1 and expenditures for AY 1989 were $0.

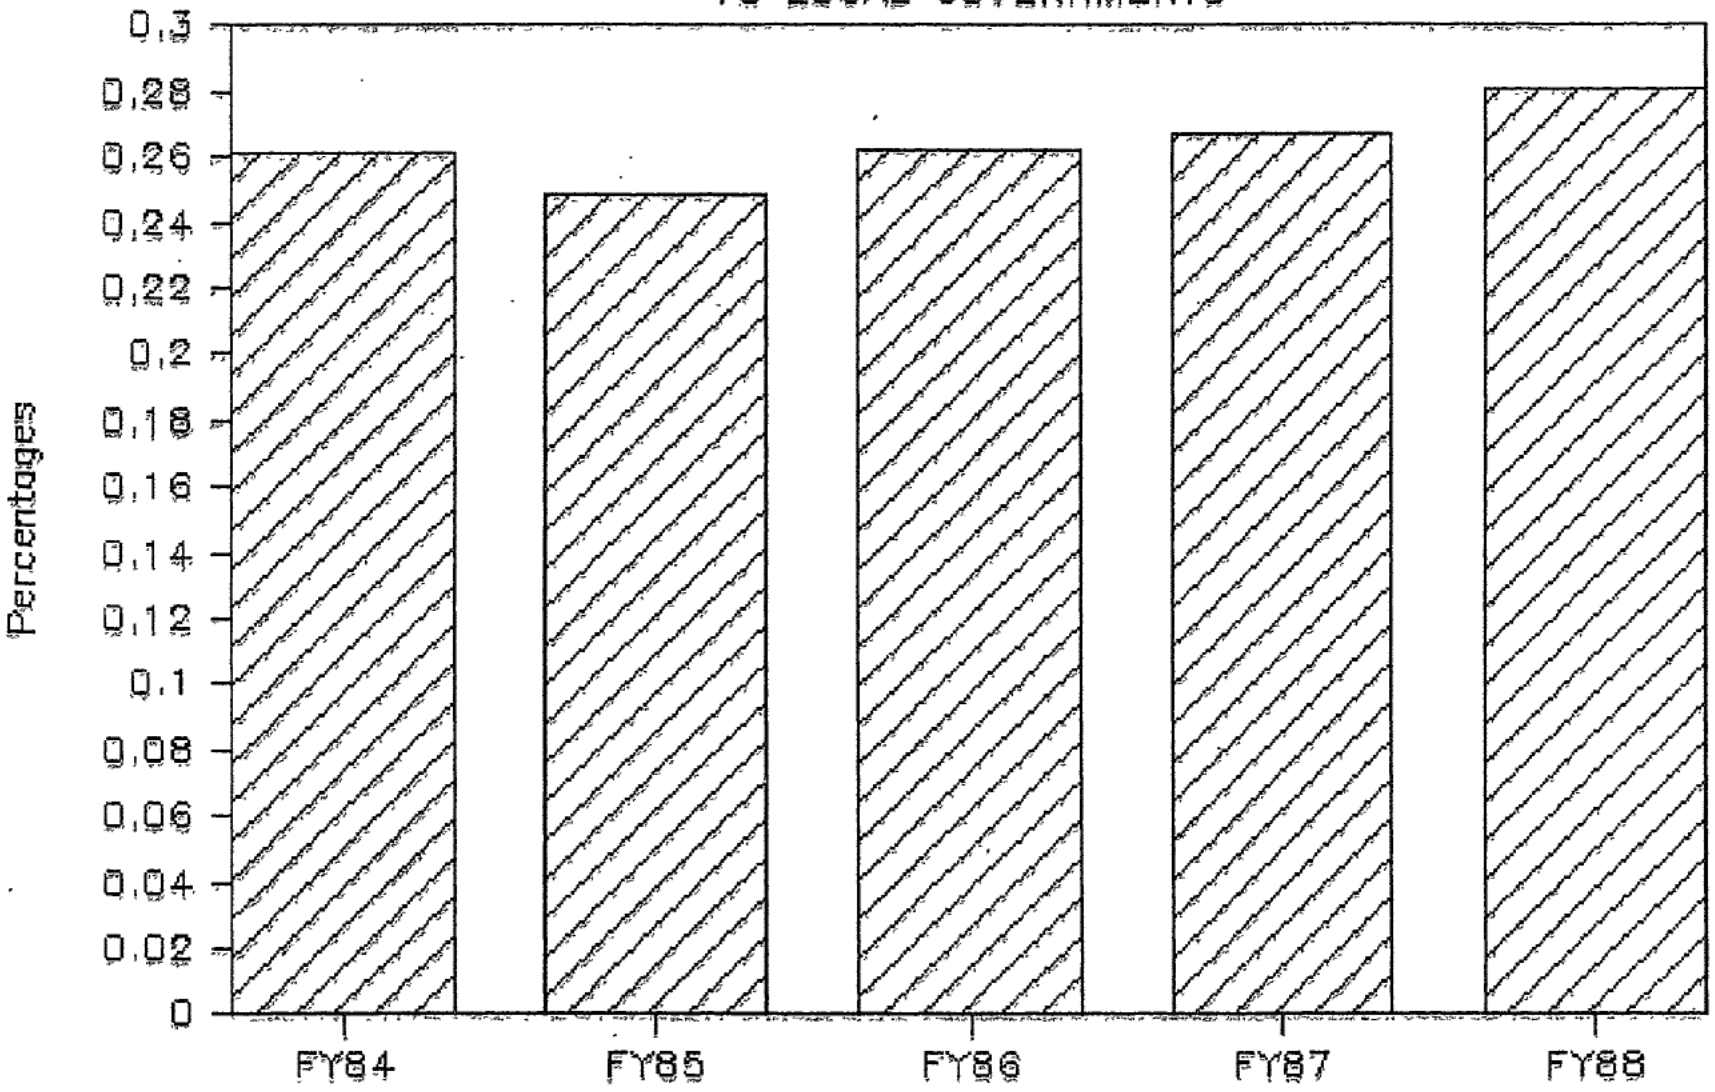
PERCENTAGES OF STATE COLLECTIONS

TO LOCAL GOVERNMENTS



APPENDIX A:

JOINT COMMITTEE FOR LEGISLATIVE RESEARCH

COMMITTEE RESOLUTION No. 1

COMMITTEE RESOLUTION NO. 1

WHEREAS, the growth of the state government and its programs has resulted in large amounts of money being granted for various programs at the local level; and

WHEREAS, these funds have been made available for a multitude of programs, the actual size, distribution and impact of which are unknown to the General Assembly; and

WHEREAS, the General Assembly may better perform its appropriations function if more complete information regarding the exact amount and the impact of funds that flow to local governments is available:

NOW, THEREFORE, BE IT RESOLVED by the Committee on Legislative Research, that the Oversight Division of the Committee on Legislative Research be directed to undertake a comprehensive study of the total funds going to local governmental units from state government sources. The committee shall make a final report to include findings, conclusions, and recommendations to the General Assembly; and

BE IT FURTHER RESOLVED that the study shall include, but not be limited to:

(1) The dollar amounts of state funds received by the local government;

(2) The dollar amounts of state funds received by various geographic areas in the state;

(3) The distribution of such funds among the various types of programs;

(4) The dependence of local governments on the state funds for various types of programs;

(5) A reconciliation of the growth of state participation in those programs for the past ten years;

(6) An analysis of requirements imposed by the state government for continued participation;

(7) Options which may be available to local governments to continue such programs at present levels if state funding is reduced or eliminated; and

(8) The methods and procedures by which such state funds are sought, utilized, monitored and controlled by local governments and their instrumentalities and other governmental organizations located in the state.

APPENDIX B:

LISTING & DESCRIPTION OF HOUSE APPROPRIATION BILLS No. 1.000-12.000

Appropriation Bills

House Bill No. 1

House Bill No. 2

Section 2.015. to the Department of Elementary and Secondary Education, for the purpose of funding retirement benefits under the Missouri Teacher's Retirement Plan.(Personal Service Benefits).

From General Revenue Fund	$ 891,316
From Federal Funds	$ 845,892
